

Good evening parents, this is Vaughn White, Superintendent of Hesperia Community Schools with a brief message.

Parents, I am calling to share with you that an elementary teacher tested positive for COVID-19 this afternoon. We have completed our contact tracing process and have notified those that will need to be quarantined.

We continue to have rising numbers of COVID-19 positive cases in both Oceana and Newaygo Counties. We ask that you continue to social distance, sanitize, and wear your masks as much as possible when gathering with others.

Thank you, and have a good evening.
